Summary

The Extraordinary social change through sport project aims to improve socio-sport animation through cooperation between sports promotion bodies and organizations that promote social inclusion.

The expected result is a higher quality socio-sport animation which will be verified by the end of the project using the quality standards that will be developed during the project cycle.

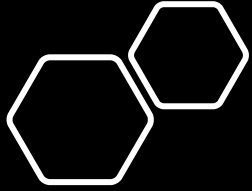

The specific objectives of this project are:

1. Promote knowledge and exchange of ideas, good practices and projects among the associations involved.
2. To define an intersectoral and international work methodology. Promotion of a path which will present the cultural direction of the associations involved in quality, starting from their own particular characteristics.
3. Identify, starting from existing certification standards or management systems, and test a set of standards, related monitoring as well as evaluation systems, suitable for certifying the quality of social and sporting animation.

The objective is consistent with the topic "Encourage social inclusion" and "Equal opportunities in sports", contained in the Call EAC-A03-2018 / Small Collaborative Partnership Erasmus Plus Sport.

The project include 4 trasnational meetings.

The dissemination and results are structured for continuation in order to generate benefits after the end of the project and to be used by other interested organizations that are outside the partnership of this project.

Expected results are:

1. Creation of an interchange network open to other interested associations.
2. Creation of guidelines for quality socio-sport animation.
3. Creation of a method to verify the quality standards of socio-sport animation.
