Summary

In Mom We Trust project aims to promote the self-entrepreneurship of new mothers in the field of project management applied to European funding.

The project was born from the need to be able to reconcile parent (mother) - worker times. It is thought, in fact, that the acquisition of this know-how can be an excellent basis for the start of autonomous activities.

The specific objectives are:

- 1) Transfer to new mothers the know-how to orient themselves in the world of project management applied to Eu funding.
- 2) Promote, support and encourage the start-up of self-entrepreneurship and remote work.
- 3) Provide a permanent space for discussion and sharing of good practices.

The expected results are

- 1) Start-up of new (autonomous) businesses for new mothers in the field of Project management
- 2) Implementation of a network of professional mothers at European level.

On the one hand, mothers are prepared, competent and ready to take action in this area. On the other hand, institutions that need professionals at their side to obtain contributions from the European Commission. Our task is to bring them together, to stimulate them, to ensure the effectiveness and professionalism of the work to be carried out.

The project involves 5 organisations from countries participating in the programme and 1 partner country (North Macedonia) also involves 12 participants with fewer opportunities and includes 2 international meetings and 2 team building. A web portal will be created that will work even after the end of the project.
