<p><b>Summary of the project</b> Short overview of the project</p>	<p><i>The project's main objective is to engage children to participate in community life in five European regions (Italy, Spain, North Macedonia, Bulgaria, Romania). In to order to reach this, we have selected two specific objectives:</i></p> <ol style="list-style-type: none"> <li>1. <i>To increase/ improve their competences to work with children in order to make them feel part of a community.</i></li> <li>2. <i>To help/ support children to be more self-confident to express themselves and their needs.</i></li> </ol> <p>These objectives will be reached through the implementation of two linked activities that will be developed during 18 months.</p> <p>The first activity we decided to involve educators, teachers, trainers, psychologists plus two facilitators. They will work in groups formed by 6/8 people led by the facilitators who belong to formal and non-formal education. With this activity will create a tool kit in order to help the stakeholder to reach the objective.</p> <p>The second activity pursue the achievement of the second objective by using the tool kit in order to create long term and sustainable programmes and to disseminate it to the other stakeholders and public entities.</p> <p><i>The output will be the tool kit and the program itself and the outcome will be that the kids will participate and express themselves in community life, thus taking an active attitude and be self-confident.</i></p>
